IQ SOFT

Become Independent

IQ Soft is an Independent software development company based in Armenia with 6+ years of experience in the iGaming and Blockchain development industry. Our solutions portfolio includes a comprehensive range of betting and crypto industry related products and services which are covering the full spectrum of betting for online and land-based sectors.

Our company's success story began on 01.04.2015 when an enthusiastic, goal-oriented team of developers with a clear vision of aims decided to change the existing rules of the gaming industry and develop an Independency **Platform** for operators with truly innovative solutions.

Our mission is to return the human natural state to all of our partners, which is **Independency**, make our partners' lives easier by automating all possible business processes and giving a chance to operate with minimum resources. **Trustability, honesty, good reputation and flexibility** are the core ideas which we follow.

3 Cash out types

2K+ Betting markets

Desktop   Mobile   Retail   Terminal   POS Terminal

Bet Builder Solution

Build your bet with your wishing selections no matter if they are connected or not. Based on mathematical formulas, the system will calculate the final odd of your chosen set of selections' success outcome, combining them with "And" or "Or" conditions. This solution is one of the newest creations in the Sportsbook platform which we are offering. The fresh feature will gather Sportsbook enthusiasts for new challenges. It is quick, convenient and a new addition in Sportsbook, which will assure your competency in the market.

Benefits

- Variety of Market types
- "And" & "Or" Conditions for bets
- Build common odd for set of selections around one match
- Ability to Set Margins and Restrictions

15+ Market Types

Single & Multiple Bets

Live Match Tracker

Our Live Match Tracker is available for the favorite sport types such as Soccer, Tennis and Basketball. It comes together with IQ Soft provided Sportsbook platform, as well as a separate service which can be integrated to 3rd parties via API.

Benefits

- Easy to integrate
- Different board views
- All actions and animations are available for all devices
- Multi - lingual support

Sport Statistics

Statistics provides a wide variety of Sporting data ranging from competitions, matches through to individual player data. Our database includes detailed sporting statistics for the last 20 years. Statistics, like our other offerings, are multi-lingual and can be adapted to Partners brandbook.

Benefits

- Multi - lingual support
- Branded design
- Full soccer covered
- Data from over 2,000 competitions, including 600+ soccer tournaments
- Over 20 years of accurate historical data for top football leagues
- Statistics for Handicap/Total/Individual Total

IQ Feed
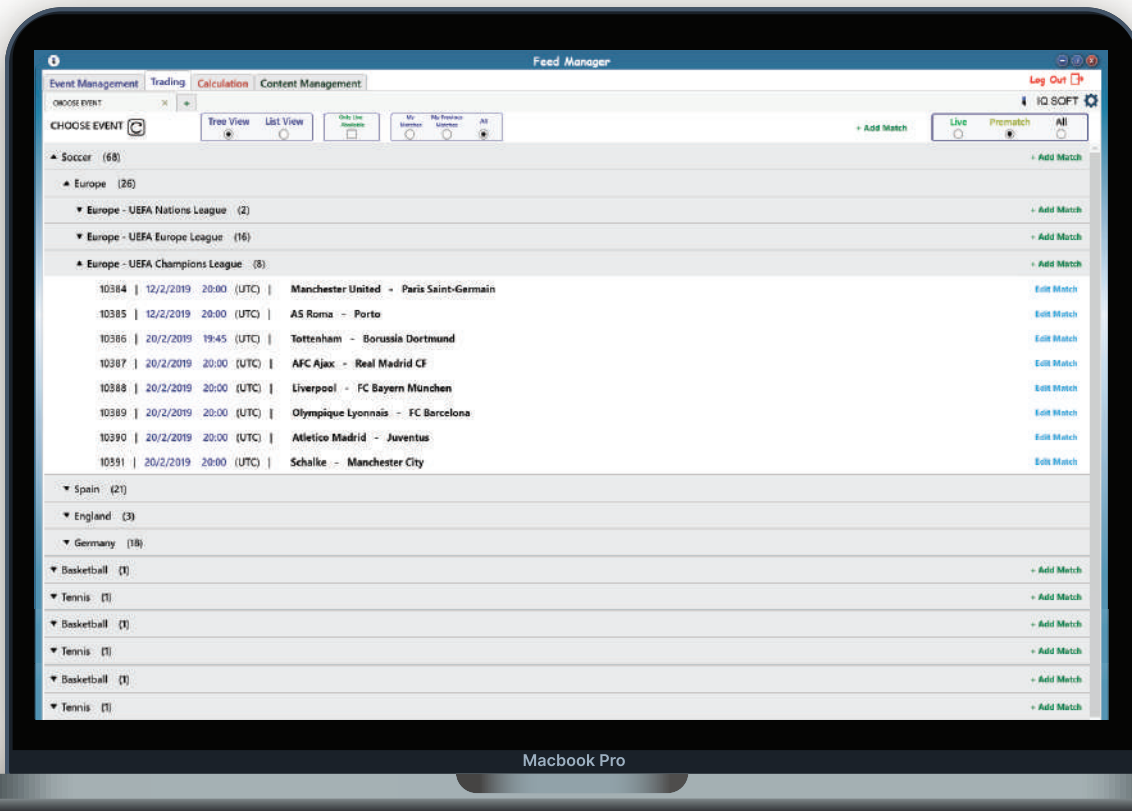

Socket based odds feed integration API with the lowest latency. IQ Soft's ODDS FEED provides competitive quantity and quality of odds with your preferable margins. It is possible to receive pure odds without any margins as well. With a professional team of traders, analysts and mathematicians we are offering partner's chosen matches and competitions with the best price in the market. Settlements are processed automatically when results are known. All our odds data is collected by our traders based on our mathematical models for odds calculation. Our portfolio of markets covers not only European, but also Asian market types such as Asian Total, Asian Handicap and a range of new market types which you can't find in our competitors portfolio. Powerful Adds Feed back-office provides ability to our partners to subscribe on specific pre-match and live events for managing them separately.

Benefits

- Over 2,000+ betting markets
- Real time data
- Easy socket-based integration protocol
- Real time resulting
- Quick settlement
- Minimized traffic for big count of matches

Skill Games Platform

Exciting skill games designed to involve players' activities which also have multi-lingual and multi-currency support and are configured and managed from the back office directly.

Benefits

- Multi - lingual support
- Multi - currency support
- Web/Mobile versions
- Easy integrated

- Game history recovery
- Daily Tournaments
- Fresh updates and regular new features

Backgammon

Backgammon is one of the oldest games in the world. It is a game of strategy and skill with some luck thrown into it. Game is played by two people with dice and checkers on a board consisting of twenty-four points, in which each player tries to move his checkers home and bear them off (take checkers off the board) while preventing the opponent from doing the same thing. The objective is for players to remove all their checkers from the board before their opponent can do the same. You can find here Long and short types of Backgammons, Manual and Auto-Roll options choosing which each player will play in his preferable way.

Okey

Classic game which is very popular in most European countries. Okey is a game that can be played by four players. It comprises 106 tiles - including two jokers - numbered from 1 to 13. The objective is to be the first to eliminate all the tiles in a hand.
User-friendly design helps players settle in within no time at all. The lobby connects all the players with each other. Waiting tables can be viewed and joined to start the game immediately.

Poker

The famous Poker game which gathers all the table games lovers around the world. Here you will have the ability to configure and add regular tournaments from backoffice, manage players, manage UI configurations the way you'd like.

Casino Engine

More games, more revenue. We are offering the opportunity to integrate a variety of Casino games, Slots, Live Dealer Games and Table Games through a single gateway with seamless wallet support across all top casino providers. Operators themselves can easily build their website using comprehensive CMS tools. By choosing the list of casino game providers, even specific games, operators can activate them on their websites and navigate through the categories.

Benefits

- Multi - lingual support
- Multi - currency support
- Flexible CMS
- Bonus Factory
- Free Spins based on provider
- Progressive Jackpot based on provider
- Direct Integration of 10,000+ Casino and Live Casino games from top providers
- Web/Mobile versions

Live Casino

Casino

Lottery

Lotteries are one of the most popular forms of entertainment all over the world. They are safer than sports betting and casinos, at the same time with the chance of big winnings. Live Monitors

It is a multi screen management system for bet shops which is adopted for multiple TV monitors. IQ Soft screen solutions allow information to be displayed more impressively, flexibly and clearly than ever before.

Web/Mobile/Applications for iOS and Android

Having a betting app available on Android and iOS is a vital part of any bookmaker's business as apps are used religiously by many who like to keep up to date with the latest odds and games.
IQ Soft provides an all in one single application for everyone looking to place bets on sport and casino, virtual and skill games, live casino and more. Besides the application, customers have option to use browser based classic interfaces with adopted design for all screen sizes and full functionality.

Services

24/7 B2B Support

IQ Soft is providing a dedicated account manager and support team working for our partners individually. Our customer-oriented team is ready to answer your requests 24 hours a day, 7 days a week and provide the needed support that will keep your business running during all hours of the day. We do our best to resolve tasks quickly and provide personal attention to each of our customers.

Trading

Our Odds Feed service provides competitive quantity and quality of odds with your preferable margins,offering thousands of pre-match and live events for different types of sports. All our odds data is collected by our traders based on our mathematical models for odds calculation. Our portfolio of markets includes thousands of different types including European and Asian , as well as unique market types which you can't find in our competitors portfolio. The 24/7 trading team is ready to provide your requested events together with settlement and statistics.

Risk Management

To protect our B2C operators from fraud players we have created powerful anti-fraud tools to keep an eye on and to have higher profitness based on partners strategies. We also share our back office functionality with our partners to allow them to manage risks and make important decisions themselves. Multi-level protection systems such as customers and competitions categorizations, delays and limits restrictions are available for each of our partners individually. To reach the highest possible profit having the same volume of bets - this is what IQ Soft's Risk management does for you.

Development & Deployment

Our team of engineers are open to involve your requirements in our development processes as well as realize your ideas developing solutions from scratch considering all UI and functional requirements. We also provide full deployment and maintenance services with continuous development and upgrades.
